1	\$37,416
2	\$48,924
3	\$60,444
4	\$71,952
5	\$83,460

Is a home address required?

Yes, for installing the service.....	A B C
Yes, but only for delivering a hotspot to you....	D E

Seattle Public Library Hotspots

SPL offers free WiFi hotspots that can be checked out for 21 days at a time.

Anyone with a library card can get a hotspot, but the wait times are very long — **a month or longer** as of early 2021. The library is adding more hotspots, so we hope the wait times will become shorter over the next few months.

To place a hold for a hotspot, or for help getting a library card call **206-386-4636**. Have your library card ready when you call to request a hotspot.

After you request a hotspot, the library will call or email you to let you know when it becomes available.

Lifeline “Obama Phone”

You can get a free cell phone with data service if you already receive one of: food stamps (SNAP), Medicaid, Supplemental Security Income (SSI), Veterans/Survivors Pension, or Section 8 Public Housing Assistance, Bureau of Indian Affairs Assistance, TANF, Food Distribution Program, or have a unemployment benefit letter (unemployment eligibility only until 06/30/2021)

Emergency Broadband Benefit

The Emergency Broadband Benefit (EBB) is part of the emergency COVID-19 response. The government will pay you up to \$50 (or \$75 on Tribal Lands) per month to cover internet access.

The program began on May 12 of 2021 and will last until the \$3.2 billion fund runs out. We expect the program to last for at least several months.

You are eligible for the EBB if you participate in:

- The Lifeline “Obama Phone” program
- Supplemental Social Security (SSI)
- Veteran’s Pension and Survivors Benefits
- Medicaid
- Federal Public Housing Assistance (FPHA)
- Supplemental Nutrition Assistance Program (SNAP)
- Free and Reduced Lunch Program
- Pell Grant
- Any of the low-cost options on the previous pages

You also qualify if your household income is below 135 percent of the federal poverty line:

Household size	Yearly income less than
1	\$17,388
2	\$23,517
3	\$29,646
4	\$35,775
5	\$41,904
6	\$48,033
7	\$54,162
8	\$60,291

Free Xfinity WiFi Locations

Xfinity provides free internet access at some locations around the city during the pandemic.

Step 1: find a WiFi network. You'll have to be near one of the Xfinity WiFi locations to follow these steps. See our map.

Step 2: connect to the network.

Using a phone or laptop, find a WiFi network named *xfinitywifi*. After your device connects, try to visit any web site.

If you have successfully connected, you will be redirected to an Xfinity page.

Step 3: find out if the network is free.

Free networks will show you a page titled "*Get Connected Now.*"

If you see this, all you need to do is click "*Accept and Connect*" and you're online!

Non-free networks will ask you to sign in or pay.

You can access these WiFi locations using a phone or laptop from outside. In some parts of the city, there are a lot of them.

Unfortunately, it can be hard to find these locations if you do not already have internet access, and many of them are not free.

It's not possible to tell which ones are free until you try to connect.

hotspots.wifi.comcast.com has an interactive version of this map.
